

PHAM Duc Dung

Backend Web Developer

Professional Experience

Backend Web Developer

Sotatek VN, HaNoi

February 2024 - June 2024

- Worked on backend development for the TicketNFT project.
- Primarily develop APIs and additional entities.
- Write unit tests using Jest.
- Use NestJS, TypeORM, and TypeScript.

Web Backend Developer

VTI Corporation, Hanoi

January 2025 - May 2025

- Developed Java backend web applications and APIs.
- Handled exceptions and managed session states across multiple web projects.
- Collaborated with the team to ensure backend service stability and performance

NFT Data Collection Application

Course Project, HUST

Octobre 2023 - Janvier 2024 (~4 months)

- Participate in the creation of an application to collect NFT data from electronic exchanges such as Binance, OpenSea, and information sites like Twitter and TodayNFTNews.
- Used Java (Selenium and API calls) to collect data in JSON format; built the front-end using Swing and implemented the back-end with SQL Server.
- The project applies OOP techniques.
- GitHub link: https://github.com/Pdung-2003/OOP_TP

Basic Web Developer

Academic Project

Décembre 2023 - Janvier 2024 (~2 months)

- Create a task list application with functions corresponding to CRUD.
- Use HTML, CSS, and JS for front-end development, NodeJS and ExpressJS for the back-end.
- GitHub link: <https://github.com/Pdung-2003/ToDoListWeb>

Movie Ticket Booking Web

Course Project, HUST

August 2024 - Decembre 2024 (~3 months)

- Participated in backend development, including designing and managing the database, developing RESTful APIs, and implementing security measures like password encryption using JWT
- Use HTML, CSS, and JS for front-end development, NodeJS and ExpressJS for the back-end.
- Contributed to the deployment process and set up CI/CD pipelines to automate testing, integration, and deployment
- GitHub link: https://github.com/Pdung-2003/WebGroup8_2024_1
